Dear Sirs:

Again we want to offer you tomato seed grown and harvested on our farm. Our guarantee is call at our farm any time in growing and harvest season and we will show you 12 to 14 tons tomatoes to the acre. For several years we have been trying to get our seed to grow tomatoes that when the blossom end was red the stem would be red also. We try in every way to have the tomatoes we take seed from just the right size and shape and those that use our seed will say we are getting them better and better in every way each year. We expect all the special stock seed we harvest this year, and send out, to be certified by our State Board.

We are putting our seed up in one, one-half, and one-quarter pound packages and offer this special stock to canners @ \$1.50 per pound, Express or Postage Paid: We ask that you give our seed a trial.
